Subject: disappointed with commission decision

Good day to all.

I have used Uber in many cities in the United States and choose Uber Black car services for picking up clients and recommend to employees.

The cab services in Columbia, South Carolina are an embarrassment to our city and our state's capital. The last cab I took from the Columbia Metropolitan Airport had exhaust problems and ants in the vehicle. The prior cab was unable to find NorthEast Columbia. The rates are higher than what I have paid in Washington, DC and NYC.

I suggest each of you on the commission call a cab in our state and take a ride. Or just have someone drop you off at the Columbia airport and take a cab home. You are doing no citizen in our state a service.

I hire a private limo service to deliver clients from the airport. I will not embarrass my company, city or state by allowing someone visiting our state to ride in an airport cab. As far as safety... I have my daughter use Uber when she travels because I feel safer with Uber than cabs.

You should be ashamed of what you are protecting. I bring business into our state. You are protecting that which destroys it.

I can only assume it is naivety.

Disappointed and embarrassed,

Edwin Crow

Subject: Uber

Uber is the best way to ride share and is more convenient to obtain when a person does not want to drive drunk. Why is Charleston making hailing a cab or getting uber so hard when we have one of the largest percentages of drunk drivers in the country?

Uber is 10x better than any cab ride I've ever taken from a safety, cleanliness, and affordable perspective.

Please reinstate.
